What's driving sales, and where the ad money should go

21 OCTOBER 2026

Sales are growing fast: **9× more a day** than in September, and shoppers choose this calendar over rivals on beauty searches. The problem is ad spend. **Each ad sale costs about $29 in clicks on a $27 product.** Moving the money to the right searches is the biggest win, and fixing the category should help on top of that.

Beauty Blast 2026 calendar	Home & Kitchen › Home Décor	**2.5%**
Makeup Set Box	Beauty › Makeup › Makeup Sets	2.2%
Meet Your Mattes Gift Set	Beauty › Makeup › Makeup Sets	4.0%

- 2.5% is **normal for a gift set** and sits within the range of W7's other sets.
- Shoppers who find it **without an ad convert at about 3.7%**. Ad clicks convert at about **1.8%**.
- On beauty searches it **wins more than its fair share**. On "make up advent calendar 2026" it gets about 1 in 12 clicks but **1 in 8 purchases**. On "luxury beauty advent calendar 2026" its share of purchases is twice its share of clicks.
- The reason is price: **$27 against $55–60** for a typical beauty calendar.

Moving to Makeup Sets should lift both visibility and conversion. It already shows up well on beauty searches. But on broad searches like "advent calendar 2026", Amazon treats it as a home décor item and shows it to a mixed audience, and it converts at about a third of the market rate there. In Makeup Sets, Amazon should match it to more beauty-minded shoppers. It could also earn a **Best Seller badge**, which usually lifts clicks and conversion. We can't promise a number, but it's a quick Seller Support request and it all points the same way.

3 Listing and mobile

Strong. Content isn't the problem. It has 7 zoomable images, a video, phone-friendly A+ content, a clear title, and 5,300+ reviews at 4.4★. W7 is the only seller and holds a 99% Buy Box.

4 Where to push spend

Brand Analytics Search Query Performance, **27 Sep – 17 Oct** (the 3 weeks since the price came down). For each search it shows W7's share of all clicks and all purchases.

How to read it: a **purchase ÷ click ratio above 1×** means shoppers buy W7 more often than they click it, so extra traffic there will convert. Below 1×, they click W7 and then buy something else. "W7 sales" is the calendar's purchases over the 3 weeks. Organic rank is from Jungle Scout, 21 Oct.

- **Organic:** page one (#1–10) on nearly every beauty, makeup and teen search. Page 2–3 on broad "advent calendar" searches.
- **Paid:** the ads rarely reach the top of the page. Top-of-search share is under 5%, and no top-of-search bid boost is set.
- **Biggest opportunity:** the "Push" searches add up to about **170k searches a week** (including Spanish), and W7 already converts above market on them.

5 Where ad spend is working, and where it isn't

CAMPAIGN	SPEND	CALENDARS SOLD	AD COST PER CALENDAR	VERDICT
Auto	$2,813	126	$22	BEST
Competitor product pages	$6,469	286	$23	EXPAND
Beauty Blast keywords	$9,406	364	$26	FIX move to top of search
Sponsored Brands video ($1,400/day)	$15,203	~572	~$27	TIGHTEN
General "advent calendar" terms	$14,054	330	$43	CUT loses money

Working: ads plus the price cut lifted sales without ads about **6×** (about 7 a day to 41 a day). Auto and competitor product pages buy sales most cheaply.

Not working: every campaign pays more than $20 in ads per $27 calendar. Spend nearly tripled in two weeks, but returns fell to **$0.95 of sales per $1**.

6 Actions

1. **Cut the general "advent calendar" campaign from $1,000 to about $200 a day.** Keep "advent calendar 2026" on exact match at a low bid only: it brings sales, but W7 converts at a third of the market rate there. Add negatives: *needoh, squishy, dumpling, chocolate, lego, for adults, amazon beauty advent calendar, amazon advent calendar*.
   Frees up about $800 a day. Today it loses money on every sale.

2. **Move that budget to the "Push" searches, at the top of the page.** Use exact match on *beauty advent calendar 2026, makeup advent calendar 2026, make up advent calendar 2026, luxury beauty advent calendar 2026, makeup advent calendar, advent calendar 2026 makeup/beauty*, plus teen and women searches such as *advent calendar 2026 teen girls, makeup advent calendar 2026 for teens, advent calendar 2026 women*. Add a **+50–100% top-of-search boost**.
   Shoppers buy W7 1.1–2.8× more often than they click it here, and it already ranks #1–10 organically.

3. **Add competitor targeting for rival beauty calendars, led by product pages.** Expand the competitor product-page campaign (already about $23 per calendar) to the best-selling Sephora, Ulta, e.l.f., L'Oréal and Revolution calendars. Add searches for those brands only as a small test: *ulta advent calendar 2026* converts at market rate, while *sephora* and *elf* convert at about half.
   Reach shoppers already looking at a $60–95 calendar, with a $27 alternative.

4. **Add Spanish searches:** *calendario de adviento maquillaje* and *calendario de adviento*.
   About 42k searches a week, page one organically, and 1.9–4.1× more purchases than clicks.

5. **Set a limit on ad cost per calendar** of about $10–12, depending on W7's margin, and lower bids on anything above it.
   It's $22–43 today.

6. **Tighten the $1,400/day Sponsored Brands video** to the "Push" and brand searches. Keep a small exact-match bid on *w7 advent calendar*.
   It's the biggest budget. Brand searches convert at 70–90% purchase share.

7. **Ask Seller Support to move the calendar (and the Holiday Haul) to Makeup Sets.**
   Expect better matching to beauty shoppers, a likely lift in conversion on broad searches, and eligibility for the Best Seller badge.

7 Targets for the next 2–3 weeks

MEASURE	NOW	TARGET
Ad spend as a share of total calendar sales	~63%	25–35%
Ad cost per calendar	~$29	$10–12
Conversion rate (all traffic)	2.5%	3%+ after the category move
Calendars sold per day without an ad	~41	Rising
Top-of-search share on "Push" searches	<5%	20%+

Bottom line. The product, price and reviews are winning. Stop paying for broad and off-target searches. Put the money at the top of the beauty searches and on rival calendars' pages, where shoppers already choose W7. Move it into Makeup Sets. Do it before the late-November peak.

Notes: sales without ads are estimated as total sales minus ad-attributed sales. Recent days will still gain some sales, because Amazon counts sales for 7 days after a click. Part of the growth is seasonal.
