AMAZON US · 21 OCTOBER 2026

W7 Beauty Blast 2026 Advent Calendar (B0GTRFKFV5)

Based on Seller Central sales and traffic, Brand Analytics search data (30 Aug – 17 Oct), the Sponsored Products report (1 Sep – 21 Oct), the campaign list and an outside-in review of the listing.

Sales are growing fast. Daily sales are up **9×** since September, and shoppers choose this calendar over rivals on beauty searches. The problem is the ad spend: **each ad sale costs about $29 in clicks on a $27 product**. The fix is where the ad money goes, not the listing or the category.

SALES, 1–20 OCT	SOLD PER DAY	CONVERSION	AD SPEND, 1–20 OCT	AD SPEND ÷ SALES
$68.9k	**117**	**2.5%**	**~$43k**	**~63%**
All of Sep: $11.2k	Sep: 12	Sep: 1.9%	for $68.9k of sales	Sep: 42%

1. Conversion rate

W7 PRODUCT, 1–20 OCT	CONVERSION
Beauty Blast 2026 calendar	**2.5%**
Makeup Set Box (Makeup Sets)	2.2%
Meet Your Mattes Gift Set (Makeup Sets)	4.0%
On the Go Essentials Set (Makeup Sets)	0.8%

- 2.5% is **normal for a gift set**, in line with W7's other sets.
- Shoppers who find it **without an ad convert at about 3.7%**, against about **1.8% from ad clicks**.
- On beauty searches it **wins more than its share of sales**. On "beauty advent calendar 2026" it gets about 1 in 20 clicks but **1 in 8 purchases**.
- The reason is price: **$27 against $55–60** for a typical beauty calendar.

2. Category

- It's listed in **Home & Kitchen › Home Décor** (rank #6,663).
- The UK listing and the main rivals (e.l.f., Revolution, L'Oréal) are in **Beauty › Makeup › Makeup Sets**.
- The Holiday Haul calendar is in Home Décor too.

Not the main problem, but worth fixing. It already shows up well on beauty searches. Moving it to Makeup Sets would let it earn a Best Seller badge and rank against the right products. It's a quick Seller Support request.

3. Listing and mobile

Strong. Content isn't the problem. It has 7 zoomable images, a video, phone-friendly A+ content, a clear title, and 5,300+ reviews at 4.4★. It has one seller and a 99% Buy Box.

4. Where it ranks

SEARCH	SEARCHES / MONTH	ORGANIC RANK	SHARE OF SALES	VERDICT
beauty advent calendar 2026	99k	#6	12%	PUSH
beauty advent calendar	67k	#3	8%	PUSH
makeup advent calendar 2026	60k	#4	8%	PUSH
calendario de adviento (Spanish)	109k	#10	10%	PUSH
teen advent calendar 2026	39k	#5	5%	KEEP
sephora / ulta / elf advent calendar 2026	90k+	–	3–8%	ADD competitor targeting
advent calendar 2026	3.85M	#35	1%	LIMIT broad, expensive
amazon beauty advent calendar 2026	73k	#7	2%	CUT want Amazon's own
advent calendar 2026 for adults	364k	#67	0.3%	CUT
needoh / squishy advent calendar	630k+	#114	0.1%	CUT wrong product

- **Organic:** page one (#3–10) on nearly every beauty-calendar search. Page 2–3 on broad "advent calendar" searches.
- **Paid:** the ads rarely reach the top of the page. Top-of-search share is under 5%, with no top-of-search bid boost set.
- **Competitors:** ads already appear on rival product pages, but nothing bids on shoppers searching for **Sephora, Ulta or e.l.f. calendars**. Those calendars cost $60–95; W7's is $27.

5. Where ad spend is working, and where it isn't

CAMPAIGN	SPEND	CALENDARS SOLD	AD COST PER CALENDAR	VERDICT
Auto	$2,813	126	$22	BEST
Competitor product pages	$6,469	286	$23	OK expand
Beauty Blast keywords	$9,406	364	$26	FIX move to top of search
Sponsored Brands video ($1,400/day)	$15,203	~572	~$27	TIGHTEN
General "advent calendar" terms	**$14,054**	330	**$43**	CUT loses money

Working

- Ads plus the price cut **lifted sales without ads about 6×** (about 7 a day to 41 a day).
- Auto and competitor product targeting buy sales most cheaply.
- Beauty searches convert well.

Not working

- **Every campaign pays more than $20 in ads per $27 calendar.**
- The general "advent calendar" campaign pays $43 per calendar.
- Spend nearly tripled in two weeks, but returns fell to **$0.95 of sales per $1**.

6. Actions

1. **Cut the general "advent calendar" campaign from $1,000 to about $200 a day.** Keep only terms that sell profitably. Add negatives: *needoh, squishy, dumpling, chocolate, lego, for adults, amazon beauty advent calendar*.
   Frees up about $800 a day. Today it loses money on every sale.

2. **Move that budget to the beauty searches where it already wins, at the top of the page.** Use exact match on *beauty advent calendar 2026, beauty advent calendar, makeup advent calendar 2026, make up advent calendar 2026, teen advent calendar 2026*, with a **+50–100% top-of-search boost**.
   It ranks #3–10 organically here and takes up to 1 in 8 sales.

3. **Add competitor targeting for rival beauty calendars.** Bid on searches for *sephora advent calendar 2026, ulta advent calendar 2026, elf advent calendar 2026, essence advent calendar 2026*, and expand the existing competitor product-page campaign to the best-selling rival calendars.
   These shoppers already want a beauty calendar, and W7's is a third of the price. Competitor product pages are already one of the cheapest sources of sales.

4. **Add Spanish searches** such as *calendario de adviento* and *calendario de adviento maquillaje*.
   156k searches a month, page one organically, and they convert well.

5. **Set a limit on ad cost per calendar** of about $10–12, depending on W7's margin, and lower bids on anything above it.
   It's $22–43 today.

6. **Tighten the $1,400/day Sponsored Brands video** to beauty and brand searches only.
   It's the biggest budget.

7. **Ask Seller Support to move the calendar (and Holiday Haul) to Makeup Sets.**
   Quick to do. It opens up the Best Seller badge.

7. Targets for the next 2–3 weeks

MEASURE	NOW	TARGET
Ad spend as a share of total calendar sales	~63%	25–35%
Ad cost per calendar	~$29	$10–12
Share of sales on "beauty advent calendar 2026"	12%	Hold 10%+
Calendars sold per day without an ad	~41	Rising
Top-of-search share on beauty searches	<5%	20%+

> **Bottom line.** The product, price and reviews are winning. Stop paying for broad and off-target searches. Put the money at the top of the beauty searches and into rival-calendar searches, where shoppers already choose W7. Do it before the late-November peak.

Notes: sales without ads are estimated as total sales minus ad-attributed sales. Recent days will still gain some sales, because Amazon counts sales for 7 days after a click. Part of the growth is seasonal.
